THE STORY

What once started as a simple means to honor family history, Hidden History DFW uncovers the forgotten sites of Dallas that were instrumental in developing one of the largest and most vibrant African American communities in America.

This three-hour tour will visit many historic sites that trace the African American experience following the Civil War through the 1960s.

You will learn about the two largest settlements following the civil war, the role of African Americans in the formation of Deep Ellum, and how the southern Dallas migration changed the face of the city forever.
